Exciting Changes Coming to OB-Gyne Associates of Lake Forest

We want to share some exciting updates about the future of OB-Gyne Associates of Lake Forest. We have significant changes on the horizon, starting with the retirement of Dr. Jill Holden and Dr. Tanya Huang by the end of 2024. We will take time to reflect on and celebrate their years of dedicated service, their remarkable careers, and the positive impact they have had on our practice and community.

In the spirit of new beginnings, we are also thrilled to announce that in the coming year, OB-Gyne Associates of Lake Forest will be undergoing a transformation to better serve your healthcare needs. While change can be both exciting and bittersweet, we want to assure you that it will be business as usual for the majority of the coming year including your access to excellent patient care.

As part of this transformation, we will be discontinuing delivery of obstetrical patients with a due date after November 7, 2024. We understand that this news may come as a surprise and raise many questions. We want to reassure you that your care remains our top priority. Throughout this transition, we are committed to ensuring a seamless experience for all our patients.

You can expect:

- Assistance in transitioning to trusted physicians, if needed, for any OB care after November 7, 2024.
- Ongoing excellent care for all your Gynecology and women's healthcare needs.
- Open lines of communication for any questions or concerns you may have.

We value the trust you've placed in us, and we are excited about the future of the practice as we shift our focus to providing even more comprehensive women's health services.

Thank you for being an integral part of our OB-Gyne Associates of Lake Forest family. We look forward to the opportunity to continue serving you and providing exceptional healthcare tailored to your needs.

If you have any immediate questions or concerns, please feel free to reach out to Susan Elkins at obgynelfinfo@gmail.com or 847-234-3250 ext. 221. Warm regards.
