Rediscover the colors in your life

**Now FDA-cleared** as an  
Adjunct Therapy for  
**Adolescents Ages 15 & Older!**

March 24, 2024

Today marks a significant milestone that NeuroStar TMS has received FDA clearance as a first-line treatment for adolescents with depression! Adolescent depression, a pervasive issue impacting an estimated 4.3 million young individuals (ages 15 – 21) with MDD in the United States. Depression amongst adolescents can disrupt crucial aspects of development, such as academic performance, relationships with peers and family members, and overall emotional well-being. Now we have a 3<sup>rd</sup> option: an approved adjunct or alternative to traditional psychotherapy and antidepressant medications.

To learn more about NeuroStar TMS, contact the Mindful TMS Neurocare Center in Oak Park: [708-434-4087](tel:708-434-4087) or visit us online at [mindfultms.com](http://mindfultms.com)!
